

INNOVATION: DAVID LOEWY

Leaders who act with integrity to inspire and safeguard their teams enable new levels of trust, and collaboration. In turn, these unleash new ideas and ways of thinking that transform business results even in volatile and unpredictable markets. My coaching and facilitation skills help leaders to grow themselves and their teams to underpin and sustain lasting transformation and culture change.

Career milestones:

- Since 2011: Transformation and L&D Consultant and Coach in GTM Gmbh developing leaders, groups and businesses of all sizes.
- 2009 – 2011: L&D Business Engagement Manager partnering with senior business leaders in Cisco in the UK to identify and deliver behaviour change to exceed business goals, including an Innovation training programme delivered across all European Geographies.
- 2001 – 2009 L&D Consultant Team Leader adopting new approaches to create engaging technical and sales programs for Account Managers and Systems Engineers throughout Cisco's European sales force.
- 1998 – 2001 Systems Engineering Manager growing and leading a team of more than 20 highly-motivated Systems Engineers partnering with global and multi national telecommunications providers across the Europe, Middle East and Africa
- 1996 – 1998 IT Manager responsible for renewing and upgrading the whole IT infrastructure for WSP, a specialist Engineering Consultancy, with more than 2,000 consultants and other staff in locations in the UK and Far East.
- 1994 – 1996 Technical Manager for G M Hughes Network Systems with responsibility for Northern Europe and Africa.
- 1988 – 1994 Data and Voice Network Manager for Hughes Rediffusion Simulation Ltd. Designed and installed networks connecting 20 sites across Southern England.

Details of earlier experience available on request.
